

Cristian Hincapié

Senior Product Designer
Design & UX/UI Lead

- UX/UI
- DIGITAL PRODUCTS
- DESIGN SYSTEMS

8+ years designing digital products and human-centered experiences, connecting strategy, UX, UI, technology, and business.

SKILLS

PRODUCT & DESIGN

- Product Strategy
- Product Discovery
- UX Design
- UI Design
- Interaction Design
- Information Architecture
- User Flows
- Wireframing
- Prototyping
- Usability Testing
- Design Systems
- Responsive
- Mobile

RESEARCH & VALIDATION

- User Research
- Usability Testing
- Qualitative Research
- Benchmarking
- Journey Mapping
- Data-informed Design
- Digital Analytics

APPLIED AI

- AI-assisted Research
- AI-assisted Ideation

TOOLS & TECHNOLOGY

- Figma
- Maze
- Miro
- Adobe
- HTML
- CSS
- JavaScript
- React
- Angular
- Ionic
- GitHub
- Bitbucket
- Claude
- Gemini
- Copilot
- GPT
- Power Autom.
- n8n

01 PROFESSIONAL PROFILE

Product Designer with **over 8 years of experience** creating and evolving digital products, web platforms, and human-centered experiences. I combine **UX · UI · Product Design · Service Design** to transform user and business needs into clear, useful, and viable digital experiences.

I have worked across **end-to-end** processes: from discovery, research, and flow definition to prototyping, interface design, **Design Systems**, validation, and implementation support.

I work closely with **product, technology, and business** teams to turn complex problems into simple, scalable solutions.

My experience in **Design Systems, digital analytics, Front-End, and Artificial Intelligence applied to design** allows me to connect design intent with its implementation and product evolution.

02 EXPERIENCE

- Senior Product Designer**
Compensar

Sep 2023 – May 2026
Bogotá · Col.

 - Led **design and evolution** initiatives for digital products, connecting user needs, business objectives, and technical feasibility.
 - Design **end-to-end** experiences: from research and information architecture to user flows, prototypes, high-fidelity interfaces, validation, and product evolution.
 - Work with cross-functional teams and stakeholders to transform business problems and user needs into **clear, actionable digital solutions**.
 - Design and evolve **Design Systems**, creating reusable patterns and components that support consistency, scalability, and product efficiency.
 - Use research, **digital analytics**, and user behavior to identify opportunities and guide design decisions.
 - Facilitate **workshops** and collaborative sessions to align teams, explore alternatives, and define solutions.
 - Manage and optimize digital platforms used by **more than 300 users**, identifying opportunities to improve experience, adoption, and operational efficiency.
 - Explore and apply **Artificial Intelligence** tools — including Copilot, Gemini, and Claude — to accelerate research, ideation, documentation, and design processes.
 - Design automations with **Power Automate and n8n** to streamline internal processes and reduce operational workload.

- Senior UX/UI Designer**
ADL Digital Lab

Jun 2022 – Jul 2023
Bogotá · Col.

 - Led **web and mobile UX/UI** projects, contributing across the entire process, from discovery to implementation.
 - Transformed user needs and business goals into **user flows, information architecture, wireframes, prototypes, and high-fidelity UI**.
 - Conducted **user research** and usability testing to validate hypotheses, identify friction points, and guide design decisions.
 - Designed experiences focused on **usability, conversion, and interaction clarity**, balancing user needs with business goals.
 - Collaborated directly with **product, business, and development** teams to ensure technical feasibility and proper implementation of the solutions.
 - Analyzed **user behavior** and performance metrics to identify opportunities for product optimization and evolution.
 - Integrated **Artificial Intelligence** tools into ideation, exploration, and documentation processes to accelerate the design cycle.

- Senior UX/UI Designer**
Scotiabank Colpatría

Aug 2021 – May 2022
Bogotá · Col.

 - Designed and optimized digital experiences for **web and mobile financial products**, working on highly sensitive flows and user needs.
 - Led **research, usability testing, and functional validation** to identify friction points and improve the digital experience.
 - Defined **user flows, information architecture, and high-fidelity prototypes**, translating user and business needs into digital solutions.
 - Collaborated with **product, technology, and business** teams to continuously evolve digital channels.
 - Analyzed **metrics and user behavior** to identify improvement opportunities and prioritize design decisions.
 - Supported **implementation alongside development teams**, ensuring the correct interpretation and quality of the designed solutions.

- Front-End Designer**
Fitpal SAS

Mar 2018 – Aug 2021
Bogotá · Col.

 - Designed and developed digital experiences for **web platforms and mobile applications**, bridging UX/UI and Front-End implementation.
 - Defined **user flows and product experiences** in collaboration with business and technology teams.
 - Built **reusable interfaces and components** focused on visual consistency and development efficiency.
 - Developed solutions using **React, Angular, Ionic, HTML, CSS, and JavaScript**.
 - Built **conversion-focused landing pages and digital experiences**.
