Professional Profile

Product Designer with 8+ years of experience designing and evolving digital products, web platforms, and human-centered experiences. I combine UX, UI, Product Design, and Service Design to transform user and business needs into clear, useful, and viable digital experiences.

I have worked across end-to-end product design processes, from discovery, user research, and user-flow definition to prototyping, interface design, Design Systems, validation, and implementation support. I work closely with product, technology, and business teams to turn complex problems into simple, scalable solutions.

My experience in Design Systems, digital analytics, Front-End development, and AI applied to design enables me to bridge design intent with implementation and the continuous evolution of digital products.

Experience

•  Profesional Senior - Product Designer — Sep 2023 - Mayo 2026 📍 Bogotá - Col.
Compensar

- Led initiatives focused on the design and evolution of digital products, connecting user needs, business objectives, and technical feasibility.
- Designed end-to-end experiences, from user research and information architecture to user flows, prototypes, high-fidelity interfaces, validation, and product evolution.
- Collaborated with cross-functional teams and stakeholders to translate business problems and user needs into clear, actionable digital solutions.
- Designed and evolved Design Systems, creating reusable patterns and components that support product consistency, scalability, and design efficiency.
- Leveraged user research, digital analytics, and behavioral data to identify opportunities and inform design decisions.
- Facilitated workshops and collaborative sessions to align teams, explore alternatives, and define solutions.
- Managed and optimized digital platforms used by more than 300 users, identifying opportunities to improve user experience, adoption, and operational efficiency.
- Explored and applied AI tools, including Copilot, Gemini, and Claude, to accelerate research, ideation, documentation, and design processes.
- Designed automations using Power Automate and n8n to optimize internal processes and reduce operational workload.

•  Diseñador UX/UI Senior — 2022 - 2023 📍 Bogotá - Col.
ADL Digital Lab

- Led UX/UI projects for web and mobile digital products, contributing across the process from discovery through implementation.
- Translated user needs and business objectives into user flows, information architecture, wireframes, prototypes, and high-fidelity UI designs.
- Conducted user research and usability testing to validate hypotheses, identify friction points, and inform design decisions.
- Designed experiences focused on usability, conversion, and interaction clarity, balancing user needs with business objectives.
- Collaborated directly with product, business, and development teams to ensure technical feasibility and successful implementation of design solutions.
- Analyzed user behavior and performance metrics to identify opportunities for product optimization and continuous evolution.
- Integrated AI tools into ideation, exploration, and design documentation processes to accelerate the design cycle.

•  Diseñador UX/UI Senior — 2021 - 2022 📍 Bogotá - Col.
Scotiabank Colpatría

- Designed and optimized digital experiences for web and mobile financial products, addressing user flows and needs within high-sensitivity contexts.
- Led user research, usability testing, and functional validation activities to identify friction points and improve the digital experience.
- Defined user flows, information architecture, and high-fidelity prototypes, translating user and business needs into digital solutions.
- Collaborated with product, technology, and business teams to continuously evolve digital channels.
- Analyzed user behavior and performance metrics to identify improvement opportunities and inform design prioritization.
- Partnered with development teams throughout implementation to ensure design intent was accurately translated into high-quality digital experiences.

•  Diseñador Front End — 2018 - 2021 📍 Bogotá - Col.
Fitpal SAS

- Designed and developed digital experiences for web platforms and mobile applications, bridging UX/UI design and Front-End implementation.
- Defined user flows and product experiences in collaboration with business and technology teams.
- Built reusable interfaces and components focused on visual consistency and development efficiency.
- Developed digital solutions using React, Angular, Ionic, HTML, CSS, and JavaScript.
- Built conversion-focused landing pages and digital experiences.

Skills

● Product Design	Product Strategy · Product Discovery	UX Design UI Design Interaction Design	Information Architecture · User Flows · Wireframing	Prototyping · Usability Testing Design Systems	Responsive Design Mobile Design
● Research & Validation	User Research · Usability Testing	Qualitative Research · Benchmarking · Journey	Mapping · Data-informed Design	Digital Analytics
